Your Microsoft Prepaid Card

Why did I receive this prepaid card?

You've received a prepaid card as an eligible customer in Australia or New Zealand who chose to downgrade your Microsoft 365 subscription to Microsoft 365 Classic. Microsoft is refunding the difference between your previous plan and the Classic plan, starting from your first renewal date after November 30, 2024. To make the refund process easier for customers who purchased their subscription through a retailer, with a new device, or if your payment instrument could otherwise not be credited, refunds are being provided as a prepaid card.

Who are EML Payments?

As part of your refund process, Microsoft has partnered with EML Payments to issue your gift card via the Get my eCard mobile application. EML Payments is a global leader in payment solutions, providing secure and innovative technology that powers gift cards and other payment products. EML's role is limited to issuing and managing the Gift Card on Microsoft's behalf, giving you a safe and reliable way to access your refund.

What if I did not receive the email with the prepaid card?

If you were advised that a prepaid card will be sent to you and you did not receive the email within 30 days of taking action to switch to a Microsoft 365 Classic subscription, follow these steps to access the card:

1. Go to the app store on a compatible iOS or Android device.
2. Download the **Get My eCard** app.
3. Open the **Get My eCard** app and select 'Create Account', then choose 'Email'.
4. Enter your email address that your Microsoft subscription is under and follow the prompts to activate the card. A one-time password will be sent to your email address. Copy the password out of the email and enter it when requested.
5. Once the card is activated, it will automatically appear in the **Get My eCard** app.
6. Use the "Add to Wallet" button to add the card to your digital wallet.
7. Select the **email** option to get the one-time verification code. Use of the phone number option is not configured.
8. Enter the one-time verification code into your Apple or Google wallet.

If you already have the app installed on your device, just log in with the email from your Microsoft subscription. The card will automatically show in the app. If there is more than one card, you can swipe to the right (and back to the left) to access other cards.

IMPORTANT If you are still unable to access your card and you have not received the email with the details to access your card (including checking your spam inbox) it may mean your card has not yet been issued to you. If you have not received your email within 30 days of taking action to switch to a Microsoft 365 Classic subscription, then please email the Customer Support team at support@emlpayments.com.au

How can I use the card to make online payments?

You can use the card to make payments online. For an online payment you will need the card number, card expiry and card security code. You can look up those details in the Get my eCard app.

- Open the app and (if required) log in.
- Tap the image of the card.
- The Card Reveal screen is displayed, showing the full card number and card expiry.
- Click the icon at the top right corner of the page and the back of the card will be displayed, showing the card security code (3 digits).

Enter these details when making the online purchase.

Where can I find the EAID of the card?

The EAID (External Account ID) is a unique identifier for your card.

Use this identifier when you refer to the card when talking to Customer Support.

IMPORTANT For security reasons you should never read out loud the card number which is your 16-digit PAN, even when talking to Customer Support.

You can find the EAID in the **Get my eCard** app.

Follow these steps:

- Open the app and (if required) log in.
- Click on the icon in the top right hand side corner.
- This opens a page with a menu.
- Tap the **Help & Support** menu entry. This opens the Help & Support page.
- Scroll to the bottom of the page. Above the contact numbers you find the EAID. It consists of 9 characters, a mix of numbers and uppercase letters.

What if I cannot add my card to the digital wallet?

If you are having issues adding the card to your mobile device's digital wallet, try the following first:

- Check that your device supports digital wallets.
- Check that you have updated your device with the latest software updates.
- 'Hard-restart' your device. Device-specific documentation will exist online.

Then try again.

Apple Pay

In addition to the above, follow the instructions provided by Apple [here](#).

Contact Customer Support

If this fails to resolve the issue, contact Customer Support requesting to 'Reset Mobile Wallet Tokens' and provide:

- Your full name
- Your email address
- Your mobile phone number

The Customer Support team will use these details to verify you in the EML System and delete any existing tokens for the card. Then you can try again.

Manually Add Card

You can also, at any time, try to manually provision the card. Go to the digital wallet app on your mobile device and select the button to add a new card. You will be asked to provide the card number, card expiry and card security code. You can look up those details in the **Get my eCard** app.

Why am I not receiving a One Time Password (OTP) via SMS?

Your mobile number is not registered to your - gift card. To receive your OTP, please select email as the delivery option instead. You may need an OPT to log in to the Get my eCard mobile app or add your gift card to your digital wallet

Can I use my card overseas?

Yes.

I'm in New Zealand, why was my card issued in AUD?

You will be given a refund in AUD that is equal to the amount due in NZD. The card can be used to purchase in New Zealand without additional fees.

I cannot find my question here

If you have a question about your card that is not covered here, you can reach out to Customer Support:

Australia

- Email: support@emlpayments.com.au
- Phone: 1300 973 080
- Website: <https://www.emlpayments.com/customer-support/>

If your enquiry relates to Microsoft products or services, or to your entitlement to a refund, please contact Microsoft directly through <https://support.microsoft.com/>.
